

**Elaine Rabin, MD**

Dr. Rabin is an Associate Professor in the Department of Emergency Medicine at the Icahn School of Medicine at Mount Sinai. She serves as Associate Program Director for the Residency in Emergency Medicine, and Resident Research Director. She is also a Co-Chair of ACEP's Choosing Wisely Subcommittee of the Quality and Patient Safety Committee and a member of the New York City Health Departments Emergency Department Nonfatal Overdose Advisory Group.

Prior to medical school, Dr. Rabin was involved in health economics research at the National Bureau of Economic Research and then pursued graduate work in economics at Stanford University. Dr. Rabin studied medicine at the Weill Medical College of Cornell University, trained in emergency medicine at Mount Sinai and pursued a research fellowship in health policy at Mount Sinai prior to joining the faculty. She has a wide variety of policy-related academic interests including hospital crowding, identifying and reducing low-value care, frequent emergency department users and strategies to address the opioid epidemic.
